"The World Wide Web has come a long way since its days as a modest hypertext system used by a few to share information on the Internet. Today the World Wide Web is a medium of information exchange for millions of people. They are sharing text, video, sound and data and increasingly they are trying to make their web pages interactive. JavaScript is an evolving tool, like so many tools associated with the Internet and the World Wide Web. The future of Java Script is sufficiently clear since many people have already developed sophisticated 230 pp.
