Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Excerpt from Wonders of the Physical World: The Glacier, the Iceberg, the Ice-Field, and the Avalanche Of late years the study of Nature has come to occupy a recognized place in the curriculum of our schools; and it is no longer considered enough to store the youthful mind with Latin and Greek, and the drier details of History and Geography. An attempt is generally made to give it at least some faint idea of the phenomena which surround us, and to afford it an insight into the mysteries of Physical Science. And, certainly, the man who passes through life unobservant of Creation and its wonders, of the beauty of this visible world, is so much to be pitied, that we cannot but hail with satisfaction the slightest efforts to teach the young the usefulness of an observant eye. Numerous text-books of Physical Science have been prepared by competent writers to render this study pleasurable and easy; but generally they are restricted in their scope, and, from the necessity they are under of being comprehensive, are meagre in their particulars. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
