Hart, Schaffner, and Marx of Chicago, who have shown a special interest in trying to draw the attention of American youth to the study of economic and commercial subjects, and to encourage the best thinking of the country to investigate the problems which vitally affect the business world of to-day. For this purpose they have delegated to the undersigned Committee the task of selecting topics, making all announcements, and awarding prizes annually for those who wish to compete. In the year ending June 1, 1906, the following topics were assigned: 1. To what extent, and by what administrative body, should the public attempt to control railway rates in interstate commerce? 2. A just and practicable method of taxing railway property. 3. Will the present policy of the labor unions in dealing with non-union men, and the closed shop, further the interests of the workingmen? 4. Should ship subsidies be offered by the government of the United States? 5. An examination into the economic causes of large fortunes in this country. 6. The influence of credit on the level of prices. 7. The cattle industry in its relation to the ranchman, feeder, packer, railway, and consumer.
